Summary

I am a **3rd-year Bachelor of Computer Applications (BCA)** student at **COMPUCOM Institute of Information Technology & Management (CIITM)**. I am currently pursuing **Data Analytics** training at **Samyak Computer Classes**, where I am building practical skills in **SQL, Excel, Python, Power BI, and data visualization**. I am passionate about analyzing data, solving business problems, and creating meaningful insights through dashboards and reports. I am seeking an opportunity as a **Data Analyst Intern** or **Fresher Data Analyst** to apply my technical skills, continue learning, and contribute to organizational success.

Projects

Chocolate Sales Performance Dashboard Tools: Power BI, Power Query, DAX, Excel - Developed an interactive dashboard to analyze chocolate sales performance. - Created KPI cards, sales trend charts, and country-wise/product-wise analysis using DAX. - Delivered actionable insights to support data-driven business decisions. Employee Data Cleaning & Analysis Tools: Python, Pandas, NumPy, Jupyter Notebook - Cleaned and transformed employee data by handling missing values, duplicates, and outliers. - Standardized data types and prepared an analysis-ready dataset using Pandas. - Improved data quality for accurate reporting and visualization.	Student Management System Tools: Python, Tkinter, MySQL - Developed a Student Management System with a Tkinter-based GUI to manage student records. - Implemented features to add, view, clear, and update student details, including image upload functionality. - Integrated MySQL for secure data storage, retrieval, and efficient record management. Coffee Shop Sales Dashboard Tools: Microsoft Excel, Power Query (Excel Query), Excel Charts - Developed an interactive Excel dashboard to analyze coffee shop sales, customer footfall, and order trends. - Cleaned and transformed data using Power Query and created visualizations for product, store, and sales performance. - Delivered business insights through KPIs, time-based analysis, and interactive charts to support decision-making.

Skills

Programming: Python, SQL

Data Analysis: Pandas, NumPy, Excel

Visualization: Power BI, Matplotlib

Tools: Jupyter Notebook, VS Code, Microsoft Excel

Database: MySQL

Concepts: Data Cleaning, Data Analysis, EDA, ETL, Statistics

Soft Skill:

- Analytical Thinking
- Problem Solving
- Communication Skills
- Critical Thinking
- Attention to Detail

Education Qualification

Class	Bord/ College	Year
10	RBSE	2022
12	RBSE	2024
B. C. A	C.I.I.T.M	Pursuing

Certification

- Microsoft Office Excel with Data Analysis-(04-MAY-2025)
- Rajasthan State Certificate in Information Technology-(October 2023)
- Ministry of Parliamentary Affairs, Government of India-(November,27,2024)
- CITM-2K24 Youth Fest – Poster Competition, Certificate of Appreciation

Hobbies

- Reading Books
- Playing Cricket
- Watching Educational Movies

Personal Details

Fathers Name: Shyoji ram verma Nationality: Indian Data-of-Birth: 13/01/2007 Language Know: Hindi, English

Declaration:

I hear by Declare that about Information is True and correct to the bast of My Knowledge and belief.
